PwC Switzerland on Forage

PROFILE

I'm a professional in the field of Agricuture Engineering, with expertise in Python, SQL and Power BI. I have several work experience includes internships in geotechnology, agribusiness, and post-harvest roles, where I've demonstrated my abilities in customer success, remote sensing analysis, plant production, quality control, logistics, and layout design. I'm seeking for opportunities to apply my skills and knowledge, with a focus on leveraging technology and data analysis included Python and Machine Learning to optimize insights, processes and systems.

WORK EXPERIENCE

2023-2024
Geotechnology Internship
Cromai S.A.

Development of relevant materials for the area of customer success and subsequent delivery to customers. Analysis of images from remote sensing (GIS).

2022-2023
Agribusiness Intern
Zulauf AG

Plant production and care measures. Continuos quality control and logistics.

2021-2022
Post-Harvest Internship
Agrisilos Ltda.
